Together with **Speech AI**  
Welcome back, Superhuman. Google just revealed its first new laptop concept in 15 years. Meet: Googlebook. Built from the ground up around Gemini, it features an AI-powered cursor that summons the chatbot anywhere on your screen (boldly called *Magic Painter*).  
**Today:** The Gemini-powered laptop, how to analyze any business idea with Perplexity, and get the latest prompts and trending social posts.

Different Newsletter Styles

# The Neuron

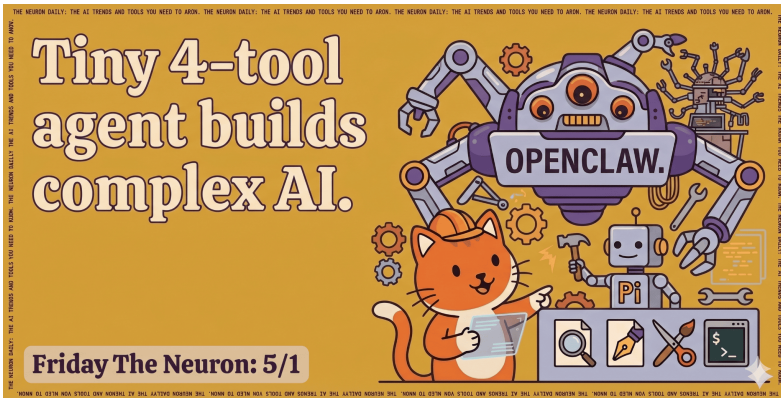

I read this daily newsletter, "The Neuron" and admired the graphic art work.

Wanted to see if I could create something I could use that would look good

# Admired Clipart

I admired Admired Clipart from this weekly online newsletter I read

Used Gemini to create a prompt

“Build a detailed prompt that could be used as a template to build graphics similar in design to these 3 embedded graphics. Then generate a graphic that says AI SIG - Build Genealogy Images”

# Gemini Initial Prompt \*

Build a detailed prompt that could be used as a template to build graphics similar in design to these 3 embedded graphics. Then generate a graphic that says AI SIG - Build Genealogy Images

# Template for AI SIG

Here is a template prompt based on the style of the provided graphics, along with the specific generation you requested.

## Graphics Template Prompt

Style: Retro 1970s-style illustration with clean, thick line art, flat or slightly textured mustard-yellow background, and a vintage color palette including teal, purple, orange, and tan.

Composition: A landscape banner format. The left side is reserved for large, decorative serif text. The right side features a detailed character illustration.

Characters/Subjects: Include an adorable, orange tabby cat (often wearing accessories like safety glasses or a hard hat) and a friendly, multi-armed robot, interacting with technology.

Layout Elements: A repeated text border around the entire perimeter reading THE NEURON SPECIAL: AI INSIGHTS YOU NEED TO KNOW. Include a date/special label box in the bottom-left corner with a contrasting background. Scatter small iconographic tools (gears, magnifying glasses, code terminals, etc.) around the main scene. Add a stylized star/sparkle icon in the corners.

Theme: Building and using complex AI tools in a friendly, approachable way.

# Create AI SIG Image - Gemini

## Graphics Template Prompt

**Style:** Retro 1970s-style illustration with clean, thick line art, flat or slightly textured mustard-yellow background, and a vintage color palette including teal, purple, orange, and tan.

**Composition:** A landscape banner format. The left side is reserved for large, decorative serif text. The right side features a detailed character illustration.

**Characters/Subjects:** Include an adorable, orange tabby cat (often wearing accessories like safety glasses

or a hard hat) and a friendly, multi-armed robot, interacting with technology.

**Layout Elements:** A repeated text border around the entire perimeter reading THE NEURON SPECIAL: AI INSIGHTS YOU NEED TO KNOW. Include a date/special label box in the bottom-left corner with a contrasting background. Scatter small iconographic tools (gears, magnifying glasses, code terminals, etc.) around the main scene. Add a stylized star/sparkle icon in the corners.

**Theme:** Building and using complex AI tools in a friendly, approachable way.

# AI SIG Image using Template

Generated Image: AI SIG - Build Genealogy Images

Using the template above, I have generated a graphic that incorporates the theme of genealogy. In this scene, the orange construction cat investigates a family tree using a magnifying glass while a multi-armed "ORIGINS AI" robot handles historical photos and digital records, perfectly blending the retro style with the requested subject matter.

# First AI Generated Image

# First Modification

Love this image! Please keep it exactly the same except make the following text adjustments: [1] remove the dash symbol right after AI SIG in large white lettering [2] change the text from "Friday, The Neuron: 5/1 The Neuron" to "Mon Jun 1, 2026, 7pm on Zoom" [3] Update the recurring inscription that surrounds the border of the image from "THE NEURON SPECIAL: AI GENEALOGY INGHTS. to "SAN RAMON GENEALOGICAL SOCIETY, ARTIFICIAL INTELLIGENCE SPECIAL INTEREST GROUP" and repeat this around the border

## 2nd Modification

Almost there: Keep image the same except two minor changes: [1] remove the words "The Neuron" and [2] Change the wording of the inscriptions around the perimeter of the image from "SAN RAMON GENEALOGICAL SOCIETY, ARTIFICIAL INTELLIGENCE SPECIAL INTEREST GROUP" to "SAN RAMON VALLEY GENEALOGICAL SOCIETY, ARTIFICIAL INTELLIGENCE SPECIAL INTEREST GROUP"

# Neuron Removed, Border Adjusted

SAN RAMON VALLEY GENEALOGICAL SOCIETY, ARTIFICIAL INTELLIGENCE SPECIAL INTEREST GROUP

# AI SIG Create Genealogy Images

Mon., May 25, 2026, 7pm on Zoom

The illustration depicts a woman with short, curly grey hair sitting at a wooden desk. She is wearing a white shirt and a brown vest, and is looking through a magnifying glass at a large sheet of paper titled 'Family Tree'. The family tree shows several names and dates: Edna Smith (1868-1952), Peter Smith (1880-1950), Alice Smith (1888-1951), and Maude Jones (1881-1950). To the right of the woman is a friendly-looking robot with a blue brain in a clear dome on its head, a white body, and purple joints. The robot has the Greek letter Pi (π) on its chest and is holding a camera, a pencil, and a paintbrush. In front of the robot is a box labeled 'ORIGINS AI. Genealogy Imaging' which is projecting a portrait of a woman. On the desk are various items including a camera, a stack of papers, and ink bottles. The background is a warm, golden-brown color with gears floating around the robot's head.

# Create Irish SIG Image - ChatGPT

**Style: Retro:** 1970s-style illustration with clean, thick line art, flat or slightly textured light green background, and a vintage color palette including teal, purple, orange, and tan.

**Composition:** A landscape banner format. The left side is reserved for large, decorative serif text, "Irish/Scottish Special Interest Group". The right side features a detailed character illustration.

**Subjects:** Include an adorable, leprechaun (often positioned over a pot of gold and waving a brown wand, wearing a black top hat)

and a friendly, desktop computer with monitor and keyboard with a family tree displayed on its screen.

**Layout Elements:** A repeated text border around the entire perimeter reading THE SAN RAMON VALLEY GENEALOGICAL SOCIETY: IRISH/SCOTTISH SPECIAL INTEREST GROUP. Include a date/special label box in the bottom-left corner with a contrasting background that reads "May 12, 2026, 10am." Scatter small iconographic tools (gears, magnifying glasses, code terminals, etc.) around the main scene. Add a stylized star/sparkle icon in the corners.

**Theme:** Researching and diagramming ancestors in scenes and family trees in a friendly, approachable way.

## Modification 2

Within the enclosed image please change two things: [1] the date from "May 13, 2026, 10am" to "June 10, 2026, 10am". [2] the maps of Ireland and Scotland and Ireland should be reversed and form factor maintained, made more colorful and have major counties identified. Also make no other changes to the image, as they are perfect.
